JMCH

JHPM

IJM

## Aim:

This conference seeks to discuss the existing situation and issues of family planning program in developing countries, and reformulate realistic policy and strategy to revitalize, improve, and accelerate the achievement of family planning program according to the current government system. It also aims to discuss gender equity issues including women's empowerment in childbearing, reproductive, and household economic decisions.

## Call for Papers:

Participants are welcome to submit and present their research papers. Research topics in any branch of public health and allied health sciences are welcome for oral or poster presentation.

All accepted papers will be published in electronic and printed ICPH Proceedings with abstracting and indexing in Crossref (DOI for each abstract/ article), BASE, CABI's Global Health, Google Scholar, OAIster (OCLC/ WorldCat), and Indonesian Publication Index (IPI).

**Programs:** 1. Seminar, 2. Workshop, 3. Oral presentation, 4. Poster.
